Hydrogen Peroxide Atomizer
Model : BYIHPM

Product Advantages

- This ergonomic and portable device facilitates easy bio-purification across various facilities. It utilizes an advanced cold evaporation system to distribute ultra-fine aerosol droplets evenly throughout smaller spaces.
- The atomizer features a touch screen and remote for automated operation, including intelligent matching of volume, temperature, and humidity. It automatically regulates disinfection cycles and includes a dynamic alarm system to monitor disinfectant levels.
- The system delivers high-level sterilization for volumes up to 200 m^3 and multiple rooms. It remains highly economical by requiring a minimal dosage of only 8ml/m^3 of hydrogen peroxide.
- Using a safe 8% hydrogen peroxide concentration, the device avoids hazardous chemical regulations. Its high material compatibility ensures total safety for sensitive electronics and room surfaces without leaving residues.
- The device enables rapid room turnover with minimal environmental constraints and no need for dehumidification. The entire decontamination process from start to finish is completed in under 90 minutes.

Specification

Weight	:	20 kg
Movement	:	Portable
H2O2	:	8%, 500ml
Decontamination	:	≤ 300m3
Power	:	110v/230V, 1.1 kw
Dimension(WxHxD)	:	50 x 40 x 52 cm
