TFK

Airblade Wash + Dry Short Hand Dryer Sink - TFK070109

Product Advantages

- High-End Features & Superior Performance The unit features a precision-polished 316L stainless steel TFK faucet paired with a noise-optimized, high-speed motor that offers three adjustable speed settings to accommodate everything from gentle instrument rinsing to rapid stain removal.
- Advanced Hygienic HEPA Filtration To ensure a sterile environment, the equipment integrates a medical-grade HEPA filter with 99.97% efficiency that traps microorganisms and prevents secondary contamination, supported by a smart reminder system for timely filter replacement.
- Efficient and Rapid Drying System Utilizing intelligent temperature control and high-speed airflow, the system dries hands in just 10-15 seconds at a comfortable temperature of 38-42°C, significantly increasing operational efficiency by over 60% compared to traditional methods.
- Center-Mounted Electronic Soap Dispenser The integrated infrared sensor enables touchless soap dispensing from a large 5L capacity tank, which reduces refill frequency by 70% and ensures hygienic, waste-free operation ideal for high-traffic industrial facilities.
- Durable Design for Locker Rooms Constructed with thickened, anti-fingerprint stainless steel, the sink is built to withstand high-frequency use in workshop locker rooms, offering a lifespan that is 50% longer than standard equipment while remaining easy to maintain.
- Ergonomic and Customizable Dimensions While The specific standard dimensions are as follows (unit: mm): Overall dimensions are **1300mm (L) × 580mm (W) × 850mm (H) + 200mm (H)** to reduce operator fatigue, the entire unit—including the length, width, and number of tanks—can be fully customized to fit the specific layout and GMP requirements of any cleanroom.
