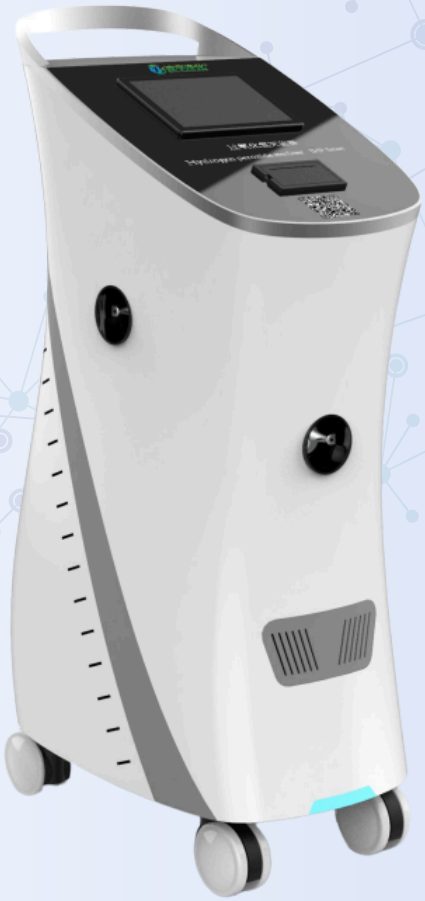
波宇净化®
BOYU PURIFICATION

Ionized Hydrogen Peroxide Sterilizer
Model : BYIHPL

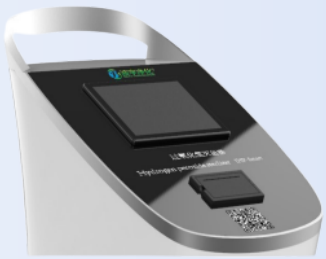
Product Advantages

- Superior Speed (IHP vs. VHP): AIHP significantly outperforms VHP by completing a full disinfection and aeration cycle in just 75 minutes, compared to the seven-plus hours required by VHP, thereby maximizing facility uptime and profitability.
- Cost-Efficiency: The portable BOYU system is highly versatile, capable of treating large volumes up to 500 m^3 with a highly efficient dosage of only 20ml/m^3.
- Safety and Compatibility: The process leaves no moisture or chemical residue, making it safe for sensitive electronics and the environment; additionally, the ready-to-use solution eliminates the need for manual mixing.
- Full Automation: The system ensures consistent, reproducible results by automatically calculating the required solution and time based on room volume, featuring a delayed start for unmanned operation.
- Industrial Power: Engineered for heavy-duty use, the "Supercharged" mode can thoroughly disinfect air and surfaces in a 500 m^3 space in just 150 minutes.
- Healthcare Origins: Initially developed for high-risk medical settings, the system is optimized to prevent cross-infection in hospitals, laboratories, and quarantine zones.
- Universal Application: Beyond clinical use, this technology is effective for infection control in diverse sectors, including public transport, education, hospitality, and industrial workplaces.



Display Screen

- Dual-mode remote control and touch screen control
- Smart delay, automatically perform disinfection process
- Touch screen choose volume, temperature and humidity intelligent matching
- Automatically adjust the volume of spray and disinfection cycle
- Disinfection record and print report
- Disinfectant consumption dynamic management (residual quantity alarm)
- Can store more than 500 disinfection record, select query to print



Exclusive Distributor : PT Gravia Citra Lestari
GC Aesthetics Clinic Building 3rd & 4th Floor
Jl. Wolter Monginsidi No. 84 HH, Petogogan Kebayoran Baru, Jakarta Selatan, Indonesia – 12170

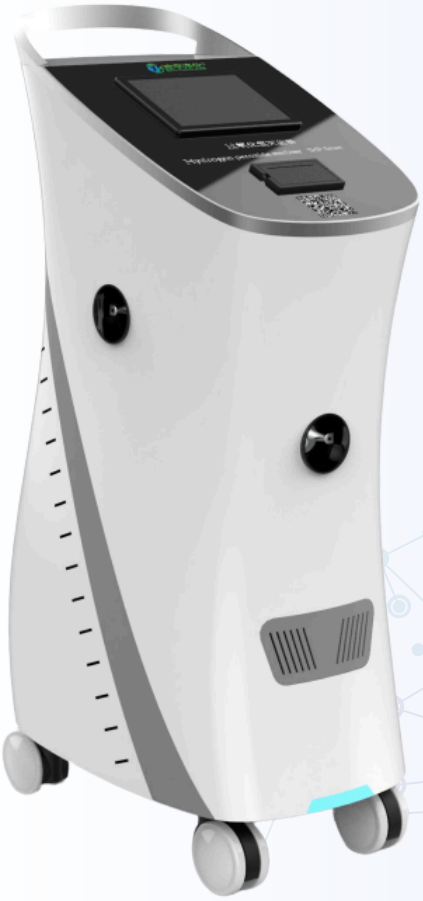
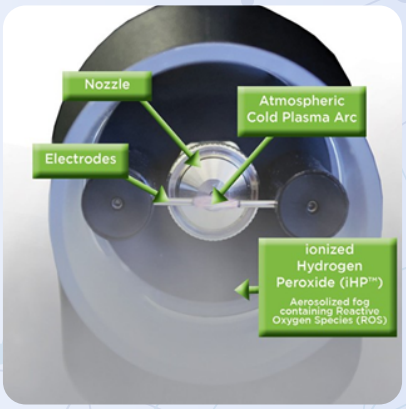
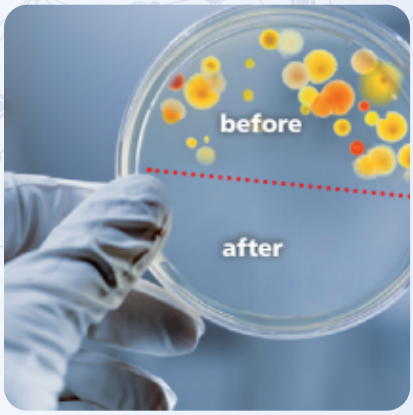
波宇净化®
BOYU PURIFICATION

Ionized Hydrogen Peroxide Sterilizer
Model : BYIHPL







Specification

Power	:	1200W
Tension Frequency	:	230 V
Intensity	:	50 to 60 Hz
Maximum Intensity	:	10 A
Speed Of Turbine	:	22000 t/min
Tank Capacity	:	2000 ml
Weight	:	45 kg
Net Weight	:	43 kg
Size	:	W 60 x H 45 x L 120 cm
Speed-Exit Of Air	:	80 m/s
Volume To Be Treated	:	500 m3
Average Output	:	2000 ml/h
Consumption	:	8ml/m3
Bottles	:	2000 ml
